

Ngok Ung
Management Team

I have proudly served on the ABC Management Committee for the past five years, bringing continuity, commitment, and a strong understanding of our objectives.

With nine years of experience in the Building Compliance industry and over 18 years in the wider service sector, I offer a well-rounded perspective grounded in both technical knowledge and customer-focused delivery. My background in sales and customer service has shaped my ability to communicate effectively, build relationships, and deliver practical solutions.

I am particularly passionate about educating others and sharing knowledge around compliance and Building Warrant of Fitness requirements, helping to promote best practice and clarity within our community.

Outside of work, I value staying active through Touch Rugby and Indoor Netball, and I enjoy exploring new dining experiences and local eateries.

I would welcome the opportunity to continue contributing to the committee and supporting its ongoing success.
