

Steve Bailey

Lecturer, Future Skills

Steve has served on the ABC committee since October 2023 and is committed to making sure that IQP's have the best training and the Opportunity to gain knowledge through participation and with his role now as a lecturer he is well placed to offer this to all members of the ABC.

Steve has been in New Zealand since 1998 working in the fire alarm and building compliance field as a senior IQP and Council liaison as of March 2026 Steve has made the move over to teaching and is now a lecturer for Future Skills passing on his knowledge on Building Compliance starting with a level 4 NZQA course.

Steve also has his IQP registration in the South Island in SS1,2,3/2, 3/3, 4, 13/2, 13/3, 14/1, 14/2, 15/1, 15/2, 15/3, 15/4 and 15/5.

Prior to living in New Zealand Steve lived in the UK and has an apprenticeship in mechanical engineering and followed this with 13 years in the lift industry where he worked overseas and trained staff from all around the world.

Steve has a passion for teaching others and takes great pleasure in seeing those that he mentors evolving and moving into successful careers.

Steve believes that building compliance is a field worth entering as it provides the opportunity to shape the buildings of the future and to make them safe for all who use them. I have been known to use the phrase that Luck is not a specified system and now is the time to reduce the use of this specified system and make our buildings and our families safe.
