

CALL FOR PAPERS SUBMISSION

Conference 2027 - Compliance Excellence through Education for Safer Buildings

As the building compliance industry continues to evolve, **education, professional development and shared knowledge are essential to achieving compliance excellence and supporting safer buildings across New Zealand.** The 2027 Association of Building Compliance Conference will bring together IQPs, building compliance professionals, councils, industry experts and key stakeholders to explore the knowledge, practices and developments that can strengthen competency, accountability and confidence across the industry.

We invite industry professionals, technical experts, educators and other subject matter specialists to share their knowledge and experience with our conference delegates by presenting at the event. We are seeking topics that align with the conference theme, as well as subjects that provide practical value to the industry, including **emerging technologies, industry developments, regulatory changes, technical innovation, professional practice, case studies and lessons learned.**

We encourage you to submit an application with an abstract outlining your proposed presentation. This will help us ensure that your topic is relevant to our delegates and fits seamlessly within the overall conference programme.

A promotional poster for the 2027 conference. The background is a dark blue gradient with a photograph of the Lower Hutt Events Centre at dusk. The text is white and blue. On the left, it says 'Compliance Excellence THROUGH EDUCATION For Safer Buildings'. At the bottom left, it says 'ASSOCIATION OF BUILDING COMPLIANCE CONFERENCE 2027 | 28 + 29 JULY 2027 LOWER HUTT EVENTS CENTRE | WELLINGTON'. At the bottom right is the ABC logo.
